Pathway 5 Land and Environment Skills

Qualification Overview

Title:	AIM Qualifications Entry Level Award in Skills for Living and Work (Entry 1)
Qualification Number:	603/6267/4
Level:	Entry 1
Credit Value:	6 credits
Guided Learning Hours:	60 hours
Total Qualification Time:	60 hours
Qualification Objective:	This qualification has been designed to provide routes into employment or further study for those learners in foundation, supported or residential and other learning environments, where a mainstream curriculum would not meet learners needs or offer routes into sustained employment. By providing learning and skills across a range of unit content, including personal development, employment skills and a specially selected range of appropriate skills that can lead to further study, employment or self-employment via a range of suitable vocational skills, these qualifications will equip learners to enter the world of work, study and adult life. This qualification also includes endorsed pathways, giving learners the opportunity to study a range of skills in an area of special interest or identified for further learning. These include Personal Development, Work Skills, Arts and Crafts Skills, Food and Drink Skills and Land and Environment Skills.
Progression Routes:	On successful completion of the AIM Qualifications Entry Level Award in Skills for Living and Work (Entry 1), learners may progress to further learning at the same level or may progress directly to similar qualifications at Entry 2, including the AIM Qualifications Entry Level Award in Skills for Living and Work (Entry 2).

Entry requirements:	There are no entry requirements for this qualification, except for a minimum age of 14.
Assessment method(s):	Assessment is through a Portfolio of Evidence/Workbook.

How is the qualification assessed?

The assessment process is as follows:

Internal Assessment by Portfolio of Evidence

Where the assessment method for the qualification is by internally set assessments (Portfolio of Evidence), then centres are free to devise their own assessments for the qualification/unit.

- All assessments should be designed in such a way as to minimise the requirement for Reasonable Adjustments to be made.
- Centre devised assessments must allow learners to meet all of the requirements of the assessment criteria for each unit. Assessments must not require learners to produce evidence above and beyond that stipulated in the Assessment Criteria.
- Centres must then have these assessments approved by their IQA.

When devising assessments, centres may choose from a range of assessment methods but where assessment guidance is provided within a unit this must be adhered to unless otherwise agreed with Aim Qualifications.

Assessment methods must be valid, fair, reliable and safe leading to authentic, sufficient and current evidence produced by the candidate.

Holistic assessment is good practice wherever possible and permitted by the assessment strategy for the qualification if this exists.

Other guidance and sample documentation is available to recognised centres covering: planning assessment; recording achievement; planning, carrying out and documenting IQA.

Reasonable Adjustment and Special Considerations

Reasonable adjustments and Special Considerations are available for all assessments, irrespective of whether they are internally or externally set.

Where a learner or group of learners may not be able to access the assessment without Reasonable Adjustments, centres should ensure that they apply in good time for relevant reasonable adjustments to be made, using the AIM Qualifications [Reasonable Adjustments and Special Considerations Policy](#) which gives clear guidance on the reasonable adjustments and arrangements that can be made to take account of disability or learning difficulty without compromising the achievement of the assessment criteria.

Qualification size

About the RQF

The Regulated Qualifications Framework (RQF) provides a single, simple system for cataloguing all qualifications regulated by Ofqual. Qualifications are indexed by their level and size.

Levels indicate the difficulty and complexity of the knowledge and skills associated with any qualification. There are eight levels supported by three “entry levels”.

Size refers to the estimated total amount of time it could typically take to study and be assessed for a qualification. Size is expressed in term of Total Qualification Time (TQT). The part of the TQT spent being taught or supervised is known as Guided Learning Hours (GLH).

Guided Learning Hours (GLH)

GLH are defined as the time a learner spends being taught or instructed by – or otherwise participating in education or training under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training. This includes guidance or supervision time:

- a) With the simultaneous physical presence of the learner and that person, or
- b) Remotely by means of simultaneous electronic communication.

It does not include the number of hours a learner spends in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total Qualification Time (TQT)

TQT is comprised of the following two elements:

- a) The number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- b) An estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or other form of participation in education or training, including assessment, which takes place as directed by – but unlike Guided Learning, not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

Rules of Combination and level for this qualification

To achieve the AIM Qualifications Entry 1 Award in Skills for Living and Work, learners must achieve a minimum of 6 credits from any combination of units in Optional Groups A to G.

In order to achieve an Award in an Endorsed Pathway, learners must achieve a minimum of 6 credits from the unit group for that pathway.
