Level 3 Award in STAR Operational Coaching

Qualification Number: 603/5846/4

Qualification Overview

Title: AIM Qualifications Level 3 Award in STAR Operational Coaching

Qualification Number: 603/5846/4

Level: Level 3

Credit Value: 11 credits

Guided Learning Hours: 16 hours

Total Qualification Time: 89 hours

Qualification Objective: This qualification has been developed to advance the skills of learners who are already working in a supervisory, management or leadership role, or who are on track to move into their first such role.

The STAR Operational Coaching course provides knowledge and develops new skills, which will enable learners to adopt and then use coaching-related behaviours as part of their everyday management style. Use of these techniques will help the learner to better engage and motivate direct reports, peers and other colleagues to drive up performance and productivity.

Progression Routes: Successful achievement of this qualification offers learners the chance to progress to further learning in Operational Coaching and Management and the opportunity to join professional bodies such as the Association for Coaching.

Entry requirements: Learners will need to be operating at or be on track to begin operating at supervisory or management level (with or without direct line management responsibility) including up to Senior Management.

Understand the different roles and responsibilities of supervisors, managers and leaders within your own organisation. Understand the relationship between improving personal skills and effectiveness in a particular role.

Read and interact with online learning tools, be able to apply exercises back in the workplace, ability to capture reflections and

record them in a learning log. Ability to apply new learning and insights towards improving personal effectiveness.

Minimum age is 18 years old.

Access to appropriate devices to complete online learning elements.

Assessment method(s): Assessment is through a Portfolio of Evidence/Workbook.

This qualification is withdrawn as of 31/10/2025, the final certification date is 31/10/2028

How is the qualification assessed?

The assessment process is as follows:

Internal Assessment by Portfolio of Evidence

Where the assessment method for the qualification is by internally set assessments (Portfolio of Evidence), then centres are free to devise their own assessments for the qualification/unit.

- All assessments should be designed in such a way as to minimise the requirement for Reasonable Adjustments to be made.
- Centre devised assessments must allow learners to meet all of the requirements of the assessment criteria for each unit. Assessments must not require learners to produce evidence above and beyond that stipulated in the Assessment Criteria.
- Centres must then have these assessments approved by their IQA.

When devising assessments, centres may choose from a range of assessment methods but where assessment guidance is provided within a unit this must be adhered to unless otherwise agreed with Aim Qualifications.

Assessment methods must be valid, fair, reliable and safe leading to authentic, sufficient and current evidence produced by the candidate.

Holistic assessment is good practice wherever possible and permitted by the assessment strategy for the qualification if this exists.

Other guidance and sample documentation is available to recognised centres covering: planning assessment; recording achievement; planning, carrying out and documenting IQA.

Reasonable Adjustment and Special Considerations

Reasonable adjustments and Special Considerations are available for all assessments, irrespective of whether they are internally or externally set.

Where a learner or group of learners may not be able to access the assessment without Reasonable Adjustments, centres should ensure that they apply in good time for relevant reasonable adjustments to be made, using the AIM Qualifications [Reasonable Adjustments and Special Considerations Policy](#) which gives clear guidance on the reasonable adjustments and arrangements that can be made to take account of disability or learning difficulty without compromising the achievement of the assessment criteria.

Qualification size

About the RQF

The Regulated Qualifications Framework (RQF) provides a single, simple system for cataloguing all qualifications regulated by Ofqual. Qualifications are indexed by their level and size.

Levels indicate the difficulty and complexity of the knowledge and skills associated with any qualification. There are eight levels supported by three “entry levels”.

Size refers to the estimated total amount of time it could typically take to study and be assessed for a qualification. Size is expressed in term of Total Qualification Time (TQT). The part of the TQT spent being taught or supervised is known as Guided Learning Hours (GLH).

Guided Learning Hours (GLH)

GLH are defined as the time a learner spends being taught or instructed by – or otherwise participating in education or training under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training. This includes guidance or supervision time:

- a) With the simultaneous physical presence of the learner and that person, or
- b) Remotely by means of simultaneous electronic communication.

It does not include the number of hours a learner spends in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total Qualification Time (TQT)

TQT is comprised of the following two elements:

- a) The number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- b) An estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or other form of participation in education or training, including assessment, which takes place as directed by – but unlike Guided Learning, not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.
