Level 4 Diploma in Canine Welfare, Training and Behaviour

Qualification Number: 603/4823/9

Qualification Overview

Title:	AIM Qualifications Level 4 Diploma in Canine Welfare, Training and Behaviour
Qualification Number:	603/4823/9
Level:	Level 4
Credit Value:	42 credits
Guided Learning Hours:	361 hours
Total Qualification Time:	420 hours
Qualification Objective:	<p>This qualification has been designed to provide learners with in-depth knowledge and understanding of canine welfare, behaviour, and training. Learners will gain knowledge of canine training and behaviour, to enable them to understand how to modify and connect with canines on a psychological level. Learners will develop knowledge on canine anatomy and physiology and the influence on behaviour. They will be able to manage a dog training class and canine behaviour problems. They will develop a deeper understanding of canine nutrition and learning theory. Learners will also develop the knowledge to understand the role of guardians and the influence of compatibility on canine ownership and the impact of lifestyle on canine behaviour and training.</p>
Progression Routes:	Learners will be able to progress into employment within the animal care sector. They will also be able to progress onto Level 5 Canine Behaviour Management qualifications or other relevant, higher study
Entry requirements:	Learners will have completed a regulated qualification at Level 3 or above in Canine behaviour, welfare, or training or at least 3 years recent experience in the subject area of canine behaviour, welfare, or training. Learners must be a minimum age of 18.
Assessment method(s):	Assessment is through a Portfolio of Evidence/Workbook.

How is the qualification assessed?

The assessment process is as follows:

Internal Assessment by Portfolio of Evidence

Where the assessment method for the qualification is by internally set assessments (Portfolio of Evidence), then centres are free to devise their own assessments for the qualification/unit.

- All assessments should be designed in such a way as to minimise the requirement for Reasonable Adjustments to be made.
- Centre devised assessments must allow learners to meet all of the requirements of the assessment criteria for each unit. Assessments must not require learners to produce evidence above and beyond that stipulated in the Assessment Criteria.
- Centres must then have these assessments approved by their IQA.

When devising assessments, centres may choose from a range of assessment methods but where assessment guidance is provided within a unit this must be adhered to unless otherwise agreed with Aim Qualifications.

Assessment methods must be valid, fair, reliable and safe leading to authentic, sufficient and current evidence produced by the candidate.

Holistic assessment is good practice wherever possible and permitted by the assessment strategy for the qualification if this exists.

Other guidance and sample documentation is available to recognised centres covering: planning assessment; recording achievement; planning, carrying out and documenting IQA.

Reasonable Adjustment and Special Considerations

Reasonable adjustments and Special Considerations are available for all assessments, irrespective of whether they are internally or externally set.

Where a learner or group of learners may not be able to access the assessment without Reasonable Adjustments, centres should ensure that they apply in good time for relevant reasonable adjustments to be made, using the AIM Qualifications [Reasonable Adjustments and Special Considerations Policy](#) which gives clear guidance on the reasonable adjustments and arrangements that can be made to take account of disability or learning difficulty without compromising the achievement of the assessment criteria.

Qualification size

About the RQF

The Regulated Qualifications Framework (RQF) provides a single, simple system for cataloguing all qualifications regulated by Ofqual. Qualifications are indexed by their level and size.

Levels indicate the difficulty and complexity of the knowledge and skills associated with any qualification. There are eight levels supported by three “entry levels”.

Size refers to the estimated total amount of time it could typically take to study and be assessed for a qualification. Size is expressed in term of Total Qualification Time (TQT). The part of the TQT spent being taught or supervised is known as Guided Learning Hours (GLH).

Guided Learning Hours (GLH)

GLH are defined as the time a learner spends being taught or instructed by – or otherwise participating in education or training under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training. This includes guidance or supervision time:

- a) With the simultaneous physical presence of the learner and that person, or
- b) Remotely by means of simultaneous electronic communication.

It does not include the number of hours a learner spends in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total Qualification Time (TQT)

TQT is comprised of the following two elements:

- a) The number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- b) An estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or other form of participation in education or training, including assessment, which takes place as directed by – but unlike Guided Learning, not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

Rules of Combination and level for this qualification
